# Meet the Founder

Ami Kumordzie is the Founder and CEO of Sika Health, a regulatory and compliance payments platform that enables millions of online shoppers to confidently pay using their HSA/FSA funds as easily as spending with a gift card. Prior to starting Sika Health, Ami was a Stanford-trained physician, turned ex-BCG consultant, and bioengineering graduate, bringing a wealth of cross-functional experience. Her healthcare expertise ranges from launching medical devices to advising health systems on care delivery. When she graduated from medical school, she could not move past the nature of the current U.S. healthcare system, treating people when sick versus proactively keeping people healthy. Drawing from this and her mother's own experience trying to navigate the logistical complexities associated with FSA spending prior to expiration, she founded Sika Health.

# About us

Sika Health is an IRS-compliant and SIGIS-member payment platform that enables millions of online shoppers to confidently pay using their HSA/FSA funds as easily as spending with a gift card. There are no eligibility checks, receipts, or reimbursements - customers simply select the Sika Health payment method at checkout and enter their HSA/FSA card details.

## SIKA

### Our Mission

Sika Health's mission is to bring the power to pay with your health plan to every checkout, starting with enabling seamless spending with HSA/FSA funds at your favorite merchants.

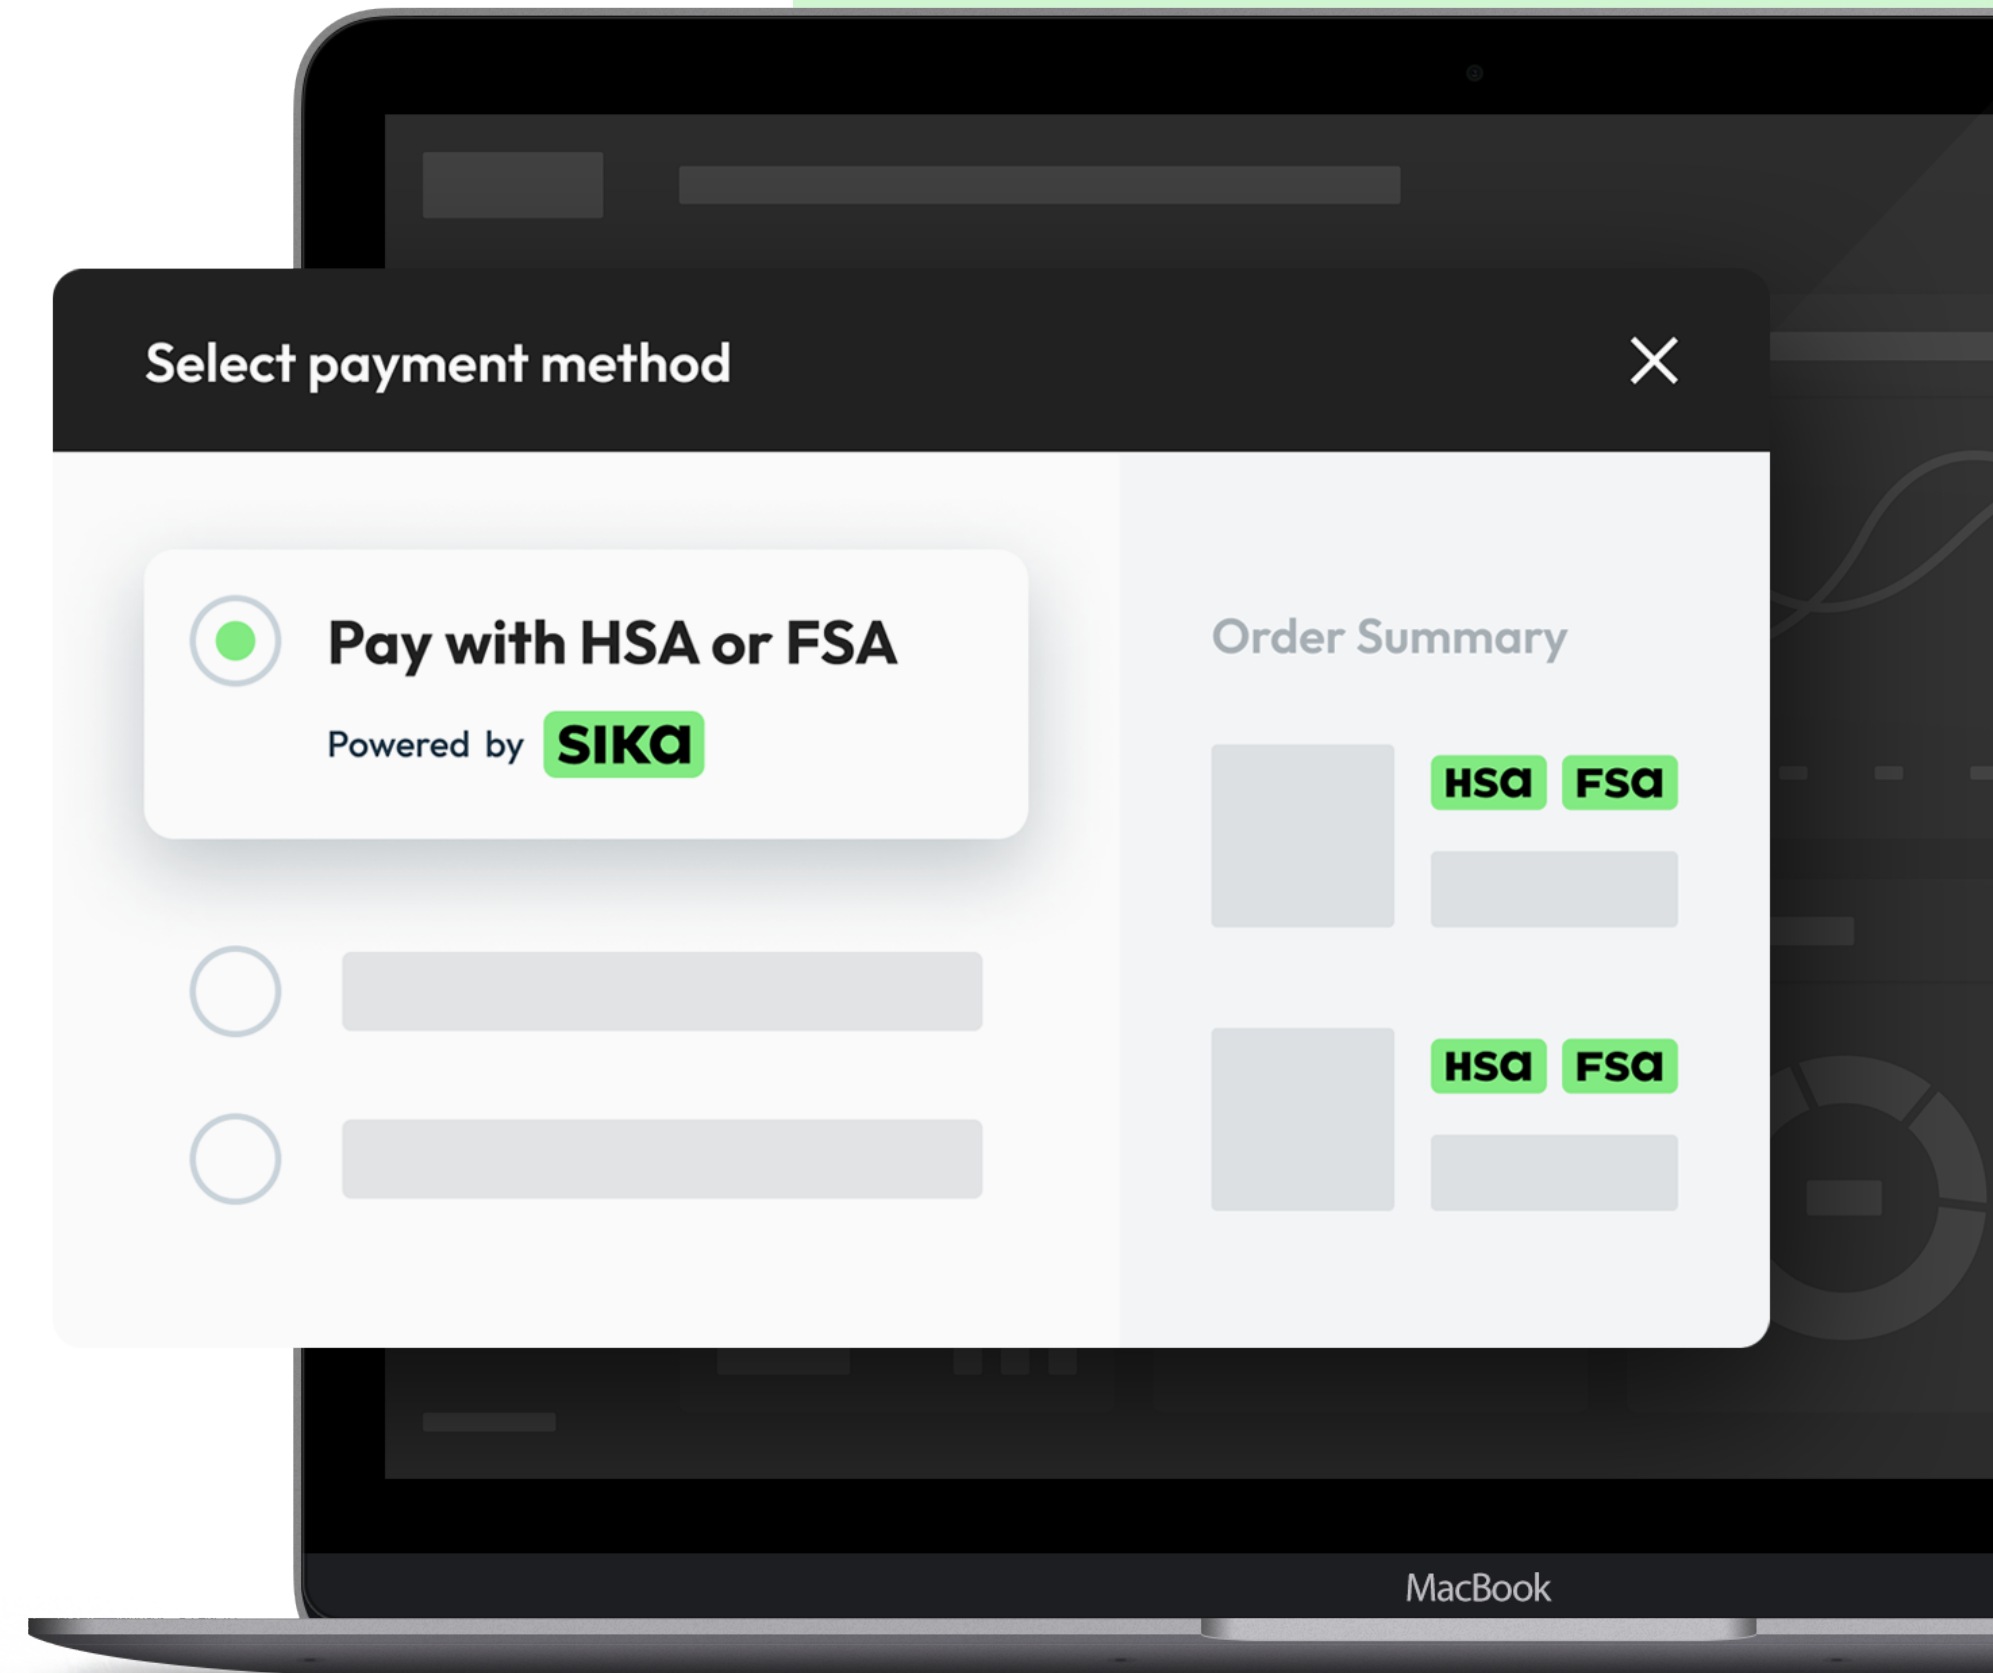

# How it works

**1** Sika Health enables consumers to proactively invest in their health using pre-tax money for a broad range of items, without having to secure the necessary approvals alone. Customers can shop knowing their HSA/FSA payments are accepted by their administrator – no receipts needed to file. Shoppers simply select Sika Health’s secure online payment gateway at a merchant’s checkout and enter their HSA/FSA card details.

**2** Sika Health partners with over 30 merchants across the health and wellness space, including Attn Grace, Bristle, Cure, Curist, Evvy, Felix Gray, Lola, Save the Milk and more, to offer the 70 million people with HSA/FSA accounts a frictionless HSA/FSA payment gateway and marketplace to spend their tax-free healthcare dollars.

**3** Sika Health’s IRS-compliant, integrated payment gateway and IAS-software-as-a-service gives merchants hassle-free certainty that their products are 100% FSA/HSA eligible and auto-substantiated.
